

INNOVATIVE ENERGY STORAGE SYSTEMS FOR GREEN ENERGY SUPPLY

8 May2018

Main figures 2017

240 professionals

14 nationalities

22 million € revenue

>220 R&D Contracts

22 Horizon2020 projects

25 National projects

+90% customer loyalty

Business Units

34 researchers TRSA / FLC

Energy + Engineering

Applied
Chemistry &
Materials

51 researchers TRSA / FLC / 22@

- Nanomaterials
- Polymers & Coatings
- Lubs & Greases
- Detergency & cosmetics

- Energy conversion & storage
- Electronics & communication
- Robotics
- Product development

INDUSTRIAL & SOCIETAL INNOVATION

Health & Biomedicine

Economy

Circular

38 researchers TRSA / Igualada

- Waste valorization
- Bioeconomy
- Pollutants Control
- Sustainability
- Water Reuse

Advanced Technological Solutions

6 Researchers TRSA

- Analytical Chemistry
- Inverse Engineering

24 researchers PCB / La fe / VdH

- Preclinical studies
- Antibodies
- Drug discovery
- Diagnosis

Location

Applied research in Europe and South America
