

Innovations in Carbon Fibres and Composite Materials Recycling

8th October 2019 - Leitat

c/ de la Innovació 2 - 08225 Terrassa

| Time | Presentation | Speaker |
|-------|--|----------------------------------|
| 10:00 | Presentation of Leitat, activities and CUSTOMISIZE project | Claudia Aguilar, Leitat |
| 10:20 | Plasma treatment | Ruth García, Leitat |
| 10:40 | Recycling of carbon fibres by steam water thermolysis | Serge da Silva, Alpha Recyclage |
| 11:00 | Concrete as a construction material and mix with carbon fibres | Erick Ringot, LRVision |
| 11:20 | Coffee break* | |
| 11:50 | Processes and applications in the field of carbon fibre recycling | Quentin Govignon, IMT Mines Albi |
| 12:10 | NanoWeld® Carbon Fibre Reinforced Composites – Stronger now means even lighter | Vassilis Drakonakis, AmaDema |
| 12:30 | Novel advanced thermoset composites with intrinsic recyclability | Alaitz Rekondo, Cidetec |
| 12:50 | Conclusion | Claudia Aguilar, Leitat |
| 12:55 | Visit of Leitat laboratories | |
| 13:40 | Lunch* | |

*provided by Leitat
